

SHIBATA GRK RACING TEAM

Hayato Yoshiba Dominates the World Championship! GRK5-R Crowned World Champion Machine!

The "Super Drift Competition (SDC) 2025 World Championship," where the world's best RC drifters compete, was held in California, USA, from October 3rd to 5th.

The event featured over 70 participating teams and a total of 163 drivers. The number of international participants, at 12 drivers from outside the US, was the highest in the history of the competition, with four of those drivers hailing from Japan.

Hayato Yoshiba from SHIBATA GRK RACING INTERNATIONAL entered the competition. After two days of intense qualifying rounds, he secured the 2nd position. The final tournament saw thrilling, heated battles among the Japanese contenders, with Yoshiba-san brilliantly claiming the title of World Champion!

The GRK5-R driven by Yoshiba-san achieves the highest level of control performance in the GRK series and is highly praised for its flexibility in settings, allowing it to be adapted to various driving styles and track layouts. It had already garnered attention as the champion machine of the 2024 All Japan Championship, and this victory further proves its high potential on the global stage.

SHIBATA GRK RACING will continue to take on challenges in domestic and international competitions, spreading the excitement of RC drifting to the entire world.
