

GRK5-R HRP NEW RELEASE

World Champion Machine Produced by HAYATOGRK5-R HRP Debuts as a Full Kit!

S HIBATA GRK RACING has officially released the GRK5-R HRP as a full kit chassis—the legendary machine driven by team leader HAYATO to win the world championship at the US Super Drift Competition (SDC) 2025. The kit comes standard with a variety of newly developed components, including a front shock tower, multi-use knuckles, and 18T bevel gears. Settings such as the Y-knuckles are identical to the final competition spec, allowing enthusiasts to experience the world-class setup firsthand. Packed with HAYATO's experience and expertise, this special full kit is built for top-tier performance.

¥214,500 (Tax incl.)

VEILSIDE FB6GT 1/10 SCALE BODY PROTOTYPE

VeilSide F86GT 1/10 Scale Body Prototype Revealed

T he "F86GT," VeilSide's striking new aero kit for the GR86, stole the spotlight at Tokyo Auto Salon 2026. Its aggressive wide-and-low styling—also featured on SHIBATA RACING TEAM's competition car—has now been recreated in 1/10 scale. Developed in collaboration with Addiction, every iconic curve and precise detail of the full-scale machine has been faithfully translated into this RC body. Development is currently underway for commercial production.
